ABOUT 'OVERKILL'

The album 'Overkill' was created at Flame On's own studio in their rehearsal room in Copenhagen. It was recorded and mixed over a period of 2+ years. A process during which the band encountered all the problems associated with making an album on your own. Everything from recording, mixing, mastering to fonts and cover art is all done by Flame On. With a lot of experience gained, Flame On now have a full length album under their belt, which shows the development the band has undergone these last two years. With 'Overkill', Flame On is now ready to move towards new goals, new music and new challenges.

ABOUT FLAME ON

Flame On is a Copenhagen based quartet. The band formed in it's original line-up back in 1996. Since then, the band has moved from a naive, high-strung punk style that made sense in the beginning, to a more "mature", controlled explosion. This musical development is the consequence of both line-up changes, and the ever expanding musical horizons of the band members. With a preserved core and the addition of new blood Flame On has been able to bend, however, without breaking.

Flame On has found it's musical anchorage in the borderland between Indie, punk and metal and classic rock. However, one would have a hard time placing Flame On in any one of these categories.

Flame On is first and foremost a live band, with a joy of playing and energy that will not be denied. Without putting on Flame On faces the crowd on their own terms, with an energy that is bound to silence even the harshest of critics. Through the years the band has played shows at all the most prominent rock venues in Copenhagen such as Lopen, Stengade 30 and Studenterhuset with bands such as The Movement (DK), Sommerset (NZ), Yaphet Kotto (US) and more. Even though the band has mostly been playing in and around Copenhagen, small trips around Denmark and recently Germany has been carried out with great succes. In 2003 Flame On was invited to play at the event "Radiohuset Rocker" which was arranged and hosted by DR (Danish national radio); a concert which was recorded and broadcasted later that evening on DR's P3.

In the years to come Flame On will continue to be a part of the Danish music scene and hopefully expand to the rest of the world. With their own, fully functional recording studio Flame On has the opportunity to develop their sound, and give other bands in the Danish underground the chance to do the same.

A new Flame On recording is already in the works. This time it's an EP scheduled for an April/May release.

FLAME ON IS:

[From left to right]

Henrik Ohlsen - Vocals
Tobias Munk Åkesson - Guitar
Charlie Andersen - Bass
Jeppe Munk Åkesson - Drums
